

NEWS FROM GRADE FIVE

By: Rita Ale and Ekta Rana

The month of August for grade five was a hectic one as the first term exam began in the second week of August. The overall performance of students in the first term exam is good. After the exam classes have resumed with new units in each subject.

In Science the next unit 'Matter & Energy' has been started. The students are conducting different experiments regarding the topic. They have already had an idea on state of matter. Now they are busy in exploring the sources of energy. For this term social studies acquaints students with a new unit on social problem, modification and solution. The students were quiet familiar with the problems existing in society. They are presently engaged in collecting newspaper cuttings and pictures depicting social problems. The motive for encouraging students to do so is to enable them to analyze social problems by themselves.

In Math students have started a new unit 'Basic Mathematical Operations'. They are learning by using base ten blocks, dices and other manipulating materials which will help them to understand the concept quickly.

In language art the students have finished with story wheel on a new story and are actively working on character sketch.

In up-coming events, grade five will have short field trips in science to cover the topic 'Sources of Energy' and in Social Studies interviewing people involved in social organization.

कक्षा ५ मा पाठ्यपुस्तकमा रहेका कथा विद्याअन्तरगतका सम्पूर्ण शीर्षकहरूको अध्यापन कार्य सकिएको छ । कथा विद्यालाई आधार बनाएर प्रथम त्रैमासिक परीक्षा पनि लिइएको थियो । परीक्षाको नतिजा अभिभावकसामु पठाइसकिइएको छ । अहिले कविता विद्याको अध्यापन कार्य चलिरहेको छ । विद्यार्थीहरूले पढ्दै गरेका कविता विद्याअन्तरगतका पाठबाट शब्दार्थ तालिका निर्माण गरी प्रदर्शन पाटीमा राखिइएको छ । विद्यार्थीहरूलाई पाठसंग सम्बन्धित कविका अन्य एक एक कृति प्रकाशनमा गई ल्याउने, पढ्ने र नेपाली विभागमा जम्मा गर्ने गृहकार्य दिइएको छ ।
