

## NEWS FROM GRADE FOUR:

By: Urmila Shrestha and Devaki Paneru

In language arts, grade four students are studying the units- 'The King of the Golden River' and 'A School for Robots'. Students will be working in comprehending the story and writing another episode for the story.

नेपाली विषयमा विद्यार्थीहरूले कथा विद्या अन्तर्गत सबै कथाहरू अध्ययन गरी सकेर कविता विद्या अन्तर्गत कि याकलापहरू गर्दैछन् ।

In Mathematics, they have completed four operations. Now in the 3<sup>rd</sup> unit students are learning simple simplification on the basis of addition and subtraction. Students are using manipulative to strengthen their knowledge.

In Science, we have started with the second unit 'Matter and Energy'. The children show lot of enthusiasm while conducting different experiments.

Children have done lot of hands on activities like- newspaper skimming, interactive discussion and preparing booklets on bad practices of society. Presently they are working on the topic 'Nepalese tradition, social values and norms'. Children have related this topic with their own traditions and culture and have talked about its significance.

Thank you
