
GRADE 9

English:

The students of grade nine have completed unit 6 in which they learned about instruction writing. They have also completed the poem 'Madam and her Madam' by American poet Langston Hughes. This poem talks about the misery of Afro-American people in America. They have taken their unit test as well of listening. Students will soon start unit 7.

Optional English

Students have finished the essay 'What I Found in My Pocket' by G.K. Chesterton. This essay uses stream of consciousness technique to elaborate on trifling things. Students at first found it very challenging because of the complex use of language but after the discussion in the class they found it quite amazing. The class will soon start the story 'War' by Luigi Pirandello.

Science:

Grade nine students have studied the unit of skeletal system and Adaptation of organisms. They completed the unit of skeletal system by group presentation and class discussions. Students were really excited to know the names of bones of skull, fore limb and hind limb.

Mathematics:

Grade nine students are doing surds of algebra. They are learning how to express mixed surds in pure surds and vice versa.

Social Studies:

In Social Studies we completed the unit – Religion and Culture. Class room discussions were centralized on the need for religious harmony and tolerance. As part of the curriculum, students also visited the Patan Durbar Square for an observational tour. They interviewed local people for more information on the architectural structures in the Durbar Square. We also visited the Patan Durbar Museum to learn more about the rich heritage of Nepalese art and architecture. In the coming month we will be starting the unit on Social Problems.

Computer

1. Types of computer according to their activities
2. Computer System
 - Hardware + Software=Computer System
 - Input-Processing-storing-Output
 - Computer devices
3. Computer Hardware:
 - Input Hardware and its examples in detail(Keyboard, mouse, Joystick, Scanner and its types etc.)
 - Motherboard

- Processing Hardware(Microprocessor)
- Output hardware and its examples in detail(Types of Output Hardware, Monitor, Printer and its types, Plotter ,Speaker)

Note: Some topics were also repeated.
