

KINDERGARTEN

Grade Teacher: Ms. Subarna Maharjan

Dear Parents/ Guardians,

Namaste, this is the third newsletter of the year. As mentioned earlier, we have been teaching according to the children's age level, so some students have almost completed all units from 1st term curriculum and some are gradually moving forward. We believe that every child is an individual with different learning capacity and when they are ready they will learn faster and better. Our job as an educator is to work patiently and help the children with their over all development.

We would be evaluating them according to their class room participation, observation, class works and home works.

Due to greater focus on learning the phonic sound of each letter from a to z, number concept and नेपाली व्यञ्जन वर्णहरू क देखि ज्ञ, we couldn't finish some of the units from the 1st term curriculum. We would be continuing those left over units later in coming days.
