

Dear Parents/ Guardians,

This month was another exciting month with various activities for the children to learn and enjoy.

### नेपाली

नेपाली विषयमा केही विद्यार्थीहरूले व्यञ्जन वर्ण सिकाइ अन्तर्गत क्रियाकलापहरू गर्दैछन् भने केहीले साउँ अक्षरबाट बनेका शब्दहरू सिकने क्रममा दुई अक्षरबाट बनेका शब्दहरू पढ्ने र लेख्ने काम गर्दैछन् ।

### English

We are still focusing on learning the phonic sounds of each letters and this month children have learnt up to letter 'o'. Next month we will introduce three letters phonetic words along with phonetic sounds of the letters.

### Mathematics:

To give them better understanding on the numbers we have introduced Base Ten Blocks and Sign Board (Montessori Materials) and children are working on Tens and Units. On the unit "Comparison of objects" we have finished 'big and small', 'tall and short' and 'long and short'.

### Social Studies & Science

As mentioned earlier we have developed our curriculum according to a particular season in Social Studies and Science. This month we have introduced flowers such as rose and hibiscus. While discussing about the season we talked about summer season and its attributes now they are exploring monsoon season.

We celebrated the Environment Day on June 5 2008. The children participated in collecting dirt and cleaning the school surroundings.

*Environment Day*
