

GRADE 3

Grade Teacher: Ms. Urmila Shrestha &
Ms. Bithika

नेपाली

नेपाली विषयमा कक्षा तीनका विद्यार्थीहरूले कथा विधाबाट बाँदर र गोही शीर्षकको पाठ अन्तरगतका क्रियाकलाप गर्नुका साथै छट्टु बटुवा शीर्षकको पाठ पढेर उक्त पाठका पात्रहरूको चरित्रचित्रण गर्ने काम गरेका छन्। उक्त कथालाई नाटकीय रूपमा प्रस्तुती गर्ने काम पनि गरेका छन्।

English:

We have been encouraging children to read different types of story books as much as they can. We have finished the story of 'The Harp of the Dagda' from the Gulmohar text.

Science:

In Science, children are currently working with the unit 'Environment' and they have been doing some project works like 'How does over pollution affect our environment?', 'How does garbage affect our drinking water?', 'How to reuse our old clothes, books, copies, wrappers and kitchen wastes?' and 'How do we recycle old paper?' These project works will be continued after Dashain and Tihar vacation also. Children will get some project works in their vacation so we (grade three teachers) look for your cooperation and help. And we would like to thank you so much for your great help in our children's project work so far.

Social Studies:

Children have worked on their projects of different festivals in the classroom having collected information from home and from the teachers through interviews. They presented their knowledge of 'Teej, Pasni, Dashain, Tihar, BhaiTika, Newari Special Festivals and Christmas' in an interactive session with Grade 4.

Inter Grade interactive session on Festivals

Computer

Grade 3 practiced WordPad but side by side they also practiced typing tutor. By the help of this software they not only enjoyed in the classroom but they also learned to type numbers and symbols without any difficulty. With this they learned the use of special keys in the keyboard like Shift key, Caps Lock, Num Lock etc.

Mathematics:

In Mathematics, 'area' unit is fulfilled effectively. We have found our children actively involved in different group/class discussion and project works. Recently, grade three children are involved in the unit 'bill and budget' which was started with a project work i.e. collage work. Further, they created their own sample bills and have been working in a project work i.e. conducting six different fake places where we get bill (e.g. departmental store, restaurant, pharmacy, bank, stationery and hospital) in the class. They will learn how to read, write and prepare different bills in this project work.
