

GRADE 4

Grade Teacher: Ms. Kanchan M
Pradhan & Ms. Rita Ale

Namaste, from all the teachers of grade four, we would like to wish you a
"Prosperous Vijaya Dashami and Tihar".

नेपाली

कक्षा चारका विद्यार्थीहरूले कविता विधा अन्तरगत पापलाग्छ , गाउछ गीत नेपाली र लक्ष्य शीर्षकका कविताहरूसँग सम्बन्धित सबै क्रियाकलापहरू गरी ती पाठहरूको एकाइ परीक्षा लिएर त्यसको प्रगति विवरण पनि पठाइएको छ । बाह्य पढाइ अन्तरगत उनीहरूले शिक्षकद्वारा निर्देशित एउटा कविता पढी त्यसको सामीक्षा गर्ने कार्य पनि गरेका छन् । उक्त कार्य उनीहरूको कक्षामा सजाइएको छ । कक्षा चारका सम्पूर्ण विद्यार्थी र अभिभावकहरूमा मेरो तर्फबाट विजया दशमीको हार्दिक मंगलमय शुभकामना ! - देवकी पनेरु

English:

In **English Language and Literature**, we have finished fifth lesson. In this lesson they have learned about the homophones (**words that sound same but are spelt differently and mean different things**). It was fun doing the activity on *homophones* and now they have understood the differences between homophones and homonyms.

Science:

In **Science**, the students learned about matters and the state of matters by performing some experiments. They also enjoyed learning about the process of evaporation and condensation" Now they are at the end of the unit "**Matter and Energy**". Shortly they will do a kind of short survey on "**Energy and its utilization**"

Mathematics:

In **Mathematics**, the children learned the topic "**Time**". Now they feel confident to tell the time by looking the clock and also can see and find dates and day for any event on the calendar. They also learned about "Money, bill and budget". They solved word problems related to Money. Now they have become able to read and collect the information from the bill. They even can make a bill for the given items. To give the children real experience of calculation of money, they also did fake shop activity.

Social Studies:

In **Social Studies**, at present they are learning about **Natural Resources**. They seem very interested in this chapter since it deals about their interest. We had a visitor (a Traffic Officer and Sub- Inspector) in our class to tell us about the "Traffic Rules" and "General Rules". We have finished the class

presentation on Child Rights. The unit test will be taken this week before they go for Dashain Vacation.

Computer

With thorough practice of programs listed in windows accessories children started using Microsoft Office PowerPoint. They learned to start Ms. PowerPoint and add new slides and designs to it. They made some simple presentation and learned to operate slide show.
