

NEWS FROM GRADE ONE

By: Maya Pun and Barna Tamang

Student teacher interaction during instructional activities

News from the classroom:

We are happy to see student's rapid progress during the first term examination. In English children are learning the uses of these/those; am/is/are and also this + adj + noun. More emphasis will be given to listening and speaking skills in language arts. We are introducing 'Civic sense' in Social Studies. It would be great if you talk about this at home. In Math, children are learning addition and subtraction of two digit numbers without carryover and their word problems. Children are exploring about matter and energy in Science.

Welcome to New comers:

Welcome to Sangita, Ganga and Jamuna! Sangita, Ganga and Jamuna were promoted to grade one from Bridge Course. They are very eager to learn and cooperative. We are happy to have these children in our class.

Thank you
