

## NEWS FROM GRADE TWO

By: Manjali Magar and Meena Sharma

We are focusing four language skills in language teaching. We are gradually introducing extensive reading in the class. You can see your children reviewing books and reading materials.

Now we are moving to our next unit 'Matter and Energy' in Science. They are going to work in groups to identify and discriminate different matter and to list out the sources and uses of light and heat.

In Mathematics, children reviewed various geometrical shapes, number-names, place value, even-odd number, ascending and descending numbers and Roman numbers. The children are wonderful problem solvers! Grade II students will soon be work on multiplication table up to ten.

Children are learning about social problem, modification and solution in Social Studies. Children try to explore the social problem existing in his/her community and how they can help to solve it.

नेपाली विषयको पाठ्यपस्तकअन्तर्गत कविता विधाबाट बुबु र मामु पाठ सकिएको छ । जसमा विद्यार्थीहरूले बालबोलीका शब्दहरूको ज्ञान गरे । विद्यार्थीहरूले स.कलन गरेका बालकविताहरू कक्षामा वाचन गरिएको छ र प्रदर्शन पाटीमा टाँसिएको छ । आउंदा दिनहरूमा थप तीन कथाहरू जसियो खोइ सियो, जसात बार सात दिनु, के कहां बस्छु अध्यापन गराइने छ ।

Thank you
